Industrial Waste
William Dick Lagoons
West Caln Township
Chester County

Hershel Richman
Assistant Attorney General
Strike Force, Philadelphia

Richard Pfachler
Environmental Protection Specialist - Enforcement
Morristown

After a December 6, 1972 phone conversation with Rick Casson of the Chester County Health Department reference subject case, it was agreed that this should be deleted from our list of active facilities, in reference to both industrial waste impoundments and siltation and erosion. The area is definitely no longer an impoundment problem since they have been backfilled adequately to contour, and the only possible reason for maintaining this as an active case would be to fulfill the reseeding portion of the November 30, 1970 agreement.

It was felt that adequate natural vegetative growth would proceed to the extent of eliminating this as a siltation problem as well.

In summary, unless you feel that section 6 of the November 30, 1970 agreement should be strictly complied with, the Regional Office considers the William Dick case closed.
